

## Eleven Plus GL Style Mock Test Experiences 2020

---

Flying Start's GL style mock test experiences provide your child with the opportunity to sit realistic practice tests in exam conditions. This is an invaluable experience for helping students to alleviate nerves, develop confidence with exam techniques and get up to speed ready for the big day.

Over the course of a three-hour session, students undertake a mock 11+ exam as close as practicable to the real Buckinghamshire 11+ tests. In addition to the mock test, your child will benefit from one of our unique **11+ Superpowers** workshops, designed to improve focus, conquer exam nerves and enhance each child's performance.

### Mock test papers

Flying Start's mock test papers are written in-house, by our team of Eleven Plus experts and directed by Sian Goodspeed, experienced teacher and author of many Schofield and Sims Eleven Plus books. We make our mock tests as close to the real deal as possible and our professionally produced papers are often hailed as the best on the market.

There are five sets of papers and students may sit any number, although most families opt for all five to enable their children to experience the full range of question types and maximise their chances of exam success.

Just like the real Buckinghamshire 11+ tests, our mocks comprise two papers, each lasting about 45 minutes, with a break in between. Within each paper there are a number of timed sections, with the format and question types closely emulating the real 11+ exams. Instructions are delivered via audio recordings for an authentic 11+ exam experience.

### Test Paper One - Verbal Reasoning (VR)

Includes comprehension, cloze and technical English elements such as proof reading, jumbled sentences etc. The verbal reasoning score from this paper makes up 50% of the total mark.

### Test Paper Two – Maths and Non-Verbal and Spatial Reasoning (NVR)

Includes quick fire maths and worded maths problems, along with a range of NVR and spatial reasoning question types, as found on the Bucks 11+ tests. The NVR and maths scores from this paper each make up 25% of the total mark.

### 11+ Superpowers Workshops

There are many mock test providers to choose from but no other company offers your child the opportunity to develop their **11+ Superpowers!**

During these innovative workshops, children will be taught a range of strategies to help them focus for longer, avoid distractions and combat exam nerves. Including techniques from neuro-linguistic programming (NLP),

the workshop at each mock test is different, enabling students to build up an **11+ Superpowers toolkit** that will give them a superhero's advantage on the day of the tests.

Students attending Flying Start's 11+ term time courses will have already encountered many of these techniques in their lessons. The **11+ Superpowers** workshops enable children to further practise and hone their skills in realistic exam situations, meaning they are far more likely to use and apply these techniques on the big day.

## Results

Results will be emailed out to you within three working days of the tests. You will be provided with your child's total score and the scores for each subject area, together with the target score and average score of the pupils who have sat the same test, either on the same day or previously.

**Please note:** *In keeping with the real Eleven Plus, Flying Start's mock test papers and answer sheets are not sent home following the tests. This is to protect copyright and to ensure that there is no risk of any child seeing the papers before they sit them. They will, however, be sent detailed feedback following the tests (please see the feedback section below.)*

## Detailed feedback

In addition, all students will be provided with a bespoke list of each question type they answered incorrectly, together with a sample question of that type. Where relevant (e.g. for longer maths and NVR questions) a worked answer including the recommended techniques will be

provided. This provides you with an invaluable opportunity to work through your child's weaker question areas with them at home.

## FREE ACCESS to Online Learning Zone

All students booking onto a Flying Start mock test will be provided with a FREE login to our **Flying Start Online Learning Zone**, giving them access to a range of online tests featuring additional practice questions of the same types found on each mock paper. Each mock test you book is complemented by a suite of tests comprising over 100 additional questions. Each suite of tests is unique to each mock so the more mock tests your child takes, the more online questions they can access. As we all know: practice makes perfect so the more tests your child does, the better their chances of improving their scores.

## Mock Test Experience

**Includes mock tests, 11+ Superpowers workshop and access to Online Learning Zone**

Our series of five GL style mock tests has been carefully scheduled at each location to enable optimal practice in the months leading up to the real 11+ tests.

Most parents opt for all five mock experiences, which is our best value package and also attracts a further **Early Bird Discount** for those booking well in advance.

## Fees

- **1 session:** £70
- **Special offer:** Book all 5 sessions in one go and only pay for 4: £280 (only £56 each!)

**Early bird discount:** Book and pay for any mock test experience by 1st March 2020 and receive 10% off. (Includes *book all 5 and only pay for 4 offer!*)

### How to book

Book online via our website:

<http://bit.ly/11PlusMockTest>

Alternatively, email

[hello@flyingstarttuition.co.uk](mailto:hello@flyingstarttuition.co.uk) or call us on **01494 772898** and one of our friendly team will be able to assist you.

### 11+ Feedback Sessions

For those students wanting more personal feedback and extra practice of exam skills, our **11+ Feedback Sessions** will be running throughout the mock test season. These sessions are ideal for students who need a bit of extra help or perhaps respond better to a tutor than a parent!

During these sessions, children will review their test papers in small groups, working through the solutions to their incorrect questions with the support of our team. This in-person, detailed feedback is a highly effective way for your child to learn from their mistakes and improve their scores on future tests.

In keeping with the Flying Start ethos, students will also be taught strategies to help them deal with exam nerves and improve their focus so that they can achieve the best possible score on the day.

### Fees

£25 per two-hour session. Limited spaces available – book early to avoid disappointment.

### How to book

Book online via our website:

Alternatively, email

[hello@flyingstarttuition.co.uk](mailto:hello@flyingstarttuition.co.uk) or call us on **01494 772898** and one of our friendly team will be able to assist you.

### 11+ Exam Boot Camp

For those who are short on time or those wanting an intensive burst of practice leading up to the exams, our **11+ Exam Boot Camp** is sure to get your child's skills up to speed. Combining our popular mock test experiences, **11+ Superpowers workshops** and personalised feedback in one day, every day for five consecutive days, plus individual support with weaker areas as required. You may book your child onto individual days or the full week.

### Fees

- £90 per day (10am-3.30pm)
- £400 for all five days (Saving £50)

**Please note:** *the mock papers used are the same series as those used on individual mock test days so do not book both unless you are happy for your child to sit the same mock paper twice.*
