

## Eleven Plus GL Style Mock Test Experiences 2021

---

**Flying Start's GL style mock test experiences provide your child with the opportunity to sit realistic practice tests online in exam conditions. This is an invaluable experience for helping students to alleviate nerves, develop confidence with exam techniques and get up to speed ready for the big day.**

### Mock test papers

Flying Start's mock test papers are written in-house, by our team of Eleven Plus experts and directed by Sian Goodspeed, experienced teacher and author of many Schofield and Sims Eleven Plus books. We make our mock tests as close to the real deal as possible and our professionally produced papers are often hailed as the best on the market.

There are five sets of papers and students may sit any number, although most families opt for all five to enable their children to experience the full range of question types and maximise their chances of exam success.

Just like the real Buckinghamshire 11+ tests, our mocks comprise two papers, each lasting about 45 minutes, with a break in between. Within each paper there are a number of timed sections, with the format and question types closely emulating the real 11+ exams. Instructions are delivered via audio recordings for an authentic 11+ exam experience.

### Test Paper One - Verbal Reasoning (VR)

Includes comprehension, cloze and technical English elements such as proof reading, jumbled sentences etc. The verbal reasoning score from this paper makes up 50% of the total mark.

### Test Paper Two – Maths and Non-Verbal and Spatial Reasoning (NVR)

Includes quick fire maths and worded maths problems, along with a range of NVR and spatial reasoning question types, as found on the Bucks 11+ tests. The NVR and maths scores from this paper each make up 25% of the total mark.

### How it works

Mock tests will take place at a scheduled time in one of our virtual exam rooms. Once enrolled in an exam, you will be given access to the online exam candidates' area, in which you will find PDFs of the exam papers and answer sheets. You will need to download and print these off for your child ahead of the exam time. If you are unable to print, we offer a print and post service for an additional fee of £10. Please email us to arrange this once you have booked the mock test.

**Important!** Please do not let your child see the test papers or answer sheets ahead of the exam!

At the time of the exam, your child will log into their virtual exam room, where they will find the exam invigilator and other exam candidates. In order to facilitate the efficient invigilation of the exam, we ask that students enter the exam room with cameras on, microphones off and their first name only displayed on screen. If you would prefer your child not to be on camera, please turn the camera off before they enter the room.

At the designated start time, the invigilator will talk through the exam procedures and will then administer the tests under strict exam conditions. We ask that parents support the formality of the exam process by ensuring that their child only has access to the materials required for the exam and understands, in advance, the exam procedures. Exam procedures and instructions will be available in the exam candidates' area on enrolment.

## Results

Following the exam, we ask that you scan or photograph your child's answer sheets and email them to us. Once your child's answer sheets have been received, they will be marked and the results will be emailed out to you within three working days. You will be provided with a report containing your child's total score and the scores for each subject area, together with the target score and average score of all the pupils who have sat the same test. Your child's scores for each question type will also be included, enabling you to assess which areas they need to work on.

## FREE Mock feedback session

Included in the mock test fee, is a live online two-hour mock feedback session. This will take place in the same virtual exam room several days after the exam results have been issued. During the feedback session, one of our tutors will review the exam papers with the students, revising key exam techniques and going over the methods for some of the trickier questions. In advance of the session, students may ask the tutor to review specific questions by posting a message in the exam forum.

## FREE ACCESS to Online Learning Zone

All students booking onto a Flying Start mock test will be provided with a FREE login to our Flying Start Online Learning Zone, giving them access to a range of online tests featuring additional practice questions of the same types found on each mock paper. Each mock test you book is complemented by a suite of tests comprising 100 additional questions. Each suite of tests is unique to each mock so the more mock tests your child takes, the more online questions they can access. As we all know: practice makes perfect - so the more tests your child does, the better their chances of improving their scores.

## When to book?

Our series of five GL style mock tests has been carefully scheduled to enable optimal practice in the months leading up to the real 11+ tests. The papers are of a similar difficulty level and can therefore be sat in any order.

To maximise the benefits, we recommend students sit one or two mock tests during the Easter and May half term breaks and the rest over the summer. This enables them to learn from their mistakes and see positive progress which is a great motivator! For dates and availability, please visit our website.

## Ready to book?

### Fees

Only £65 per mock experience! Includes downloadable mock paper, live online mock test, feedback session and learning zone access!

### How to book

Book online via our website:

**[www.flyingstarttuition.co.uk/11-plus-courses/11-plus-mock-tests](http://www.flyingstarttuition.co.uk/11-plus-courses/11-plus-mock-tests)**

Alternatively, email

**[hello@flyingstarttuition.co.uk](mailto:hello@flyingstarttuition.co.uk)** or

call us on **01494 772898** and we will be happy to assist you.

## What else is on offer?

### 11+ Flash Workshops

90-minute workshops focusing on specific 11+ question types that students typically find tricky to master.

### 11+ Superpowers Workshops

Give your child the edge with this series of five interactive online workshops.

### Revision and Practice courses

Beat the summer slide and fine-tune exam techniques with our week-long summer courses.

### Mocks in a Box

Everything you need to run realistic mock tests from the comfort of your own home.
